The Star of this date contains an ac count of "Tax-payer's Meeting" and "South Washington Aroused," in which it is stated that Dr. Satchwell was called on to make his report; that he showed in the most impressive manner that the books of our county officials were in a terribly loose condition, &c. This coming to the notice of Sheriff A. R. Black, knowing it was not so in regard to his office, aroused him too. He requested the undersigned, his sureties, to examine his books and accounts. We did so, and can assure the public that they are kept with the ntmost particularity and care; that he has paid over to the County Treasurer over \$14,000; that he has on deposit for the State tax over \$15,000, with a surplus of \$333.73. We are satisfied, so far as his office is concerned, that i is far from being in a loose condition. His assistants say he is the most particular man they have ever done business with. Everything is in ship shape order, and it required but little time to be examined thoroughly.
